New Product Feature (Apr, July Issues)

SAKURA OF AMERICA:
WWW.SAKURAOFAMERICA.COM

Artists requested a set of Cray-Pas oil pastel colors in natural skin tones for creating portrait renderings. In response, Sakura has introduced the Cray-Pas Expressionist Multi-Cultural set, consisting of an extra fine quality pigment formulation in round sticks. Extremely smooth application promotes creativity and self-expression. The consistency allows a textured application for lifelike depictions. Suitable surfaces include paper, cardboard, canvas and wood, and the set is ACMI AP Seal certified for non-toxicity. Expressionist Extender, available in two-pack sets, assists in the creation of color hues.
